## Introduction

The Continuous Professional Development Support Scheme (CPD–SS) is funded by the HSE to facilitate Non-Consultant Hospital Doctors (NCHDs) who are not in training posts to maintain and enhance their clinical knowledge and skills and to fulfil the Medical Council requirements regarding professional competence.

The CPD-SS has been developed with a view to providing NCHDs who are not enrolled in specialist training with professional educational/training courses and activities to assist the NCHD with fulfilling some of the requirements of their Professional Competence Scheme. NCHDs can apply for the CPD-SS if they:

1. Hold NCHD Contract 2010 and work in the Irish public health service
2. Are registered on the General Division or Supervised Division of the Register of Medical Practitioners maintained by the Medical Council
3. Are currently enrolled in a Professional Competence Scheme as required by law

**To access the scheme in 2017/8, NCHDs must register with a Training Body before 15 September 2017.** Eligible NCHDs can then access financial support for training and educational activities of up to 20 external credits or 3 days per annum, whichever is greatest.

Further details are available in the HSE's [Guidance Document on Continuous Professional Development Support Scheme \(CPD - SS\) for NCHDs](#)

**NCHDs have access to the full range of clinical courses/activities provided by all Irish Training Bodies.** For example an NCHD who is registered with the Royal College of Physicians of Ireland for the CPD-SS may attend a course provided by the College of Anaesthetists.

The courses available to all NCHDs registered on the CPD-SS from January to June 2018 are listed below by date and by Training Body.
