Queen's University Belfast is delighted to announce two special events happening in October 2022 to celebrate World Sight Day.

World Sight Day and Pan-Ireland Ophthalmology Day run annually and focus attention on the global issue of avoidable blindness and visual impairment.

Both days will concentrate on blinding eye diseases and will feature presentations from a host of guest lecturers who are all experts in their field both in clinical and basic science.

Many of you attended last year's events and it was a pleasure to have you there, your feedback was positive and very valuable to us.

We would be delighted to welcome you again.
