

Non-Infectious Uveitis: Real World Challenges from Inflammatory Membranes to Systemic and Local Approaches

Wednesday 20th October 2021, 19:00 - 20:30 BST
(20:00 - 21:30 CEST)

This webinar will be divided in two parts:

Part one will focus on the diagnosis, treatments and focus on multimodal imaging of inflammatory choroidal neovascular membranes in patients with non-infectious uveitis. The expert panel will discuss their clinical experience and provide guidance.

Part two will focus on dealing with treatment failures in non-infectious uveitis from a systemic and local treatment approach. The expert panel will discuss their clinical experience and provide guidance.

CO-CHAIR

Miss Laura Steeples

Consultant Ophthalmologist and Uveitis Specialist,
Manchester Royal Eye Hospital,
Manchester, United Kingdom

CO-CHAIR

Dr. Inês Leal

Consultant Ophthalmologist and Uveitis Specialist,
Centro Hospitalar Universitário Lisboa Norte, Hospital de Santa Maria,
Lisbon, Portugal

Welcome and Introductions

SPEAKER

Dr. Ester Carreño

Consultant Ophthalmologist and Uveitis Specialist,
Fundación Jiménez Díaz, Madrid, Spain

Management of Inflammatory Choroidal Neovascular Membranes

SPEAKER

Mr. William Tucker

Consultant Ophthalmologist for Uveitis, Medical Retina & Clinical Research, Moorfields Eye Hospital, London, United Kingdom

Dealing with Treatment Failures in NIU - Systemic Approach

SPEAKER

Dr. Filipa Rodrigues

Consultant Ophthalmologist and Uveitis Specialist,
Hospital Vila Franca de Xira, Portugal

Dealing with Treatment Failures in NIU - Local Approach
